Never touch a running system ?

- University WINDOWS 7 upgrade until April 2014

Problems to consider

Technical problems

- Analytic records not reproducible in MARC 21
- Direct change to MARC 21 difficult

Institutional problems

- Needs of the academic community
- Conversion of other Allegro catalogues at the same time
- Ongoing SERICA project
- Uncatalogued Chinese material in the Chinese Studies Library

New a35 *allegro* catalogue

Internally

- Unicode compatible
- Time proof system (runs on Linux)

Externally

- Platform independent system (any modern browser)
- Browseable indexes
