# ONE

## **CNKI Product Ecosystem**

As the largest knowledge service portal in Chinese studies and research, CNKI International is committed to providing users with comprehensive platform services, expanding users' access to academic resources and disciplines, reducing barriers to the use of products, and optimizing the user experience.

We will improve the stability and flexibility of the platform with more advanced technologies and services, provide more user-friendly value-added service functions, and maximize the availability, ease of use and accessibility.

# CNKI Product Ecosystem

## Vast Collection of Literature Resources

China Academic Journals Full-text Database  
China Monographic Serials Full-text Database  
China Doctoral Dissertations Full-text database  
China Masters' Theses Full-text database  
China Core Newspapers Full-text Database  
China Proceedings of Conference Full-text Database  
International Proceedings of Conference Full-text Database  
China Yearbooks Full-text Database  
China Reference Works Online  
CNKI eBooks  
Great Chinese Dictionary & Kangxi Dictionary  
China Statistical Yearbooks Database  
National Population Census of China  
Chinese Standard Full-text Database  
China Legal Knowledge Database  
Traditional Chinese Medicine Knowledge Service Platform  
AcademicReference (English Resources)  
Eastern Miscellany

## Professional Services

### Value-added services

Academic Misconduct Literature Check  
AIGC Detection&Analysis System  
Paper Submitting Platform  
Customized Data Mining Service  
Global Training Service  
Off-Campus Access Technical Service

### Individual Users Service (To C)

Personal Literature Service  
AIGC Detection and Literature  
Detection&Analysis  
CNKI Smart

## CNKI Solutions

Academic Dissemination Service Plan  
Library Publishing Development and  
Acquisition Solutions  
Intelligent Digital Processing Solutions

Traditional Chinese Medicine Knowledge Service Platform	✓	/	6,458,748 articles

# Promote Copyright Compliance

**Truth: Authors, Journal Publishers, and Digital Publishing Platforms are essential parts of the knowledge production process.** Journal publishers obtain copyright through authorization from authors, and afterwards sign agreements with digital publishing platforms. Therefore, the platforms can obtain authorization from authors via sub-authorization'. However, this authorization mode has triggered a series of legal problems such as incomplete authorization regarding published documents and flaws in claims found in the copyright statements of journals.

**To ensure the provision of compliant resource services to users,** CNKI temporarily removed articles with incomplete authorization issues or unregulated authorized content and will relist them after the copyright issues are gone.

# Provide All-Round Services to Authors and Promote Copyright Compliance

CNKI established the Author Service Centre in February 2023 and released the Author Service Platform in September, which integrates author rights service, academic social service and value-added service, and is committed to protecting authors' output, copyright compliance and scientific research creation.

# CNKI SMART

## A New-Generation Intelligent Academic Assistant, Leading a New Era in Academic Research

CNKI Smart is an AI-powered academic research tool that leverages a vast repository of literature from CNKI. It utilizes artificial intelligence models trained on this extensive dataset to assist users in swiftly and effectively conducting literature reviews, analysis, writing, and AIGC detection, while ensuring the authenticity and reliability of information for its users. By interacting with CNKI Smart, academic research will become more productive but simpler.

## CNKI SMART

Make Every Researcher's Time More Valuable

Please enter a research question

### More AI Assistants

#### Literature Analysis

Literature analysis summarizes content, research methods, conclusions, and innovations. It offers intelligent recommendations for related research, facilitating a comprehensive interpretation and quick understanding of core concepts.

#### Intelligent Writing

Ideal for research reports, planning documents, and governmental reports, Intelligent writing utilizes knowledge-enhanced large models to produce top-tier content. This fosters limitless creativity through seamless human-machine interaction.

#### Originality Check

Our integrated solution ensures content originality with plagiarism detection and AIGC level assessment, safeguarding your innovative achievements using advanced algorithms.

CNKI is the close partner of **Research Solutions** and Scite (NASDAQ: RSSS)

<https://scite.ai/home>

# What is Scite?

Scite is an **AI-Powered Citation Analysis Tool** that helps researchers better discover and evaluate scientific articles through Smart Citations that display the context of the citation and describe whether the article provides supporting, contrasting or just mentioning evidence.

### Massive Data

1.3 billion citation statements out of more than 187 million full-text research works;

### Smart Citation

Display the context of the citation and describe whether the article provides supporting or contrasting evidence;

### AI Assistant

Harnesses its unique massive database of smart citations as well as the power of large language models to provide users with answers backed by citations.

# Scite Usage Scenarios

Topic Selection & Reading	Experimentation	Writing	Evaluation
Keep track of the latest developments in a certain field;	Design research methodologies;	Create research articles;	Evaluate the academic influence/ Contribution of individuals and institutions
Find gaps in the research field and, and retracted papers;	Refers to the methodologies of other research works	Write grant proposals, marketing materials, and blog posts about research	
Facilitate intensive and extensive literature reading;		Compose review articles or conduct meta-analysis with citation critical analysis	
Seek network of external collaboration			

# Scite Authorised Countries in Europe

## Authorised Countries in Europe

France, Spain, Sweden, Germany, Finland, Norway, Poland, Romania, Belarus, Greece, Bulgaria, Iceland, Portugal, Hungary, Serbia, Austria, Ireland, Lithuania, Latvia, Croatia, Bosnia and Herzegovina, Estonia, Netherlands, Moldova, Belgium, Montenegro, Cyprus, Luxembourg, Faroe Is., Andorra, Malta, Liechtenstein, Guernsey, San Marino, Gibraltar, Monaco, Vatican City.

The graphic features a blue and purple background with circuit-like patterns. At the top left is the CNKI logo. At the top right is the SIS RESEARCH SOLUTIONS logo. The central focus is a blue speech bubble containing the text 'scite\_' in a white box. Below this, it reads 'An Award-Winning Platform', 'The Next Generation of Citations', 'The World's Largest Database of Citation Statements', and 'Over 650,000 Students, Researchers, and Industry Experts Users'. A URL 'https://scite.ai' is positioned above the 'scite\_' box. There are also icons of a speech bubble with three dots and a magnifying glass.
